Product Description

Lithium Polymer batteries are used in many RC hobby industries. Over the last few years, Lipo batteries have become the most popular battery choice for anyone looking for a longer run time and higher power. Lipo batteries weigh less and can be made in almost any size or shape. Lipo batteries have higher capacities, hold more power and have a higher discharge rate, meaning they pack more punch. For the safe use and storage of Lipo batteries, you need to follow the rules and treat the batteries with the respect they deserve.
