

## 3S 11.4V High Voltage LiHV Drone Lipo Battery Pack 1800mAh 65~130C

### Basic Information

- Brand Name: lohuite
- Model Number: 1800mAh
- Minimum Order Quantity: 2 packs
- Price: \$13.99/packs 2-49 packs
- Packaging Details: as export package
- Supply Ability: 100000 Pack/Packs per Week

### Product Specification

- Weight: 160g
- The Charging Ratio: 11.4V
- The Discharge Rate: 65c-130C
- Storage Type: 0-45
- Capacity: 1800mah
- Cells: 3s
- Voltage Per Pack: 11.4V
- Discharge Rate: 65C-130C
- Highlight: 11.4V Drone Lipo Battery ,  
Drone Lipo Battery 130C,  
High Voltage Lipo Battery 130C

## Product Description

1800mAh 3S 11.4V 65~130C High Voltage Lipoly Pack (LiHV) for RC Drone Boat FPV car

### Product Description

The advantages of LiHV batteries are higher power and longer running times. LiHV batteries can be charged to 4.35V per cell, higher than normal LiPo batteries which sit at 4.20V. For example, a 4S LiHV pack charged at 4.35V would give you 17.4V. Whereas a Lipo battery on the same charge would only get 16.8V. LiHV batteries also have lower internal resistance and are less prone to "puffing". We have a full range of Multistar High Capacity Multi-Rotor battery packs in the works and will be adding new sizes/configurations as they become available.

#### Features:

- LiHV Chemistry (Requires LiHV capable charger)
- Ultra high capacity LiPoly batteries designed specifically for multi-rotor use
- Fitted with genuine XT60 connectors
- Similar size/weight as batteries of much lower capacity, making these a direct drop-in upgrade for most multi-rotor aircraft
- Provides increased flight times of up to 30% or more when compared to standard LiPoly batteries of the same weight

- Ideal for use with aerial video and FPV multi-rotor aircraft

#### Specs:

Capacity: **1800mAh**

Voltage: **3S / 3 Cell / 11.4V**

Discharge: **65C Constant / 130C Burst**

Weight: **160g**

Dimensions: **104x34x20mm**

Balance Plug: **JST-XH**

Discharge Plug: **XT60**

### Packaging & Shipping

Regular Safety Packing Or As Customer's Requirements.

We will ship the battery by express such as DHL, TNT, UPS, FEDEX etc We can also ship by sea or air transportation for bulk large order. Delivery time for production will depend on your quantity. Usually it will take 5-7 working days, the sample will be shipped out within 3 working days.

### Our Services

1. We have our own factory with professional lithium ion battery pack for over 15 years .
2. We have a strong R&D team.
3. Offering OEM service for your order.
4. Reply within 1 hours.
5. Offering competitive price, good after-sales service.

## Company Information

LOHUIITE in manufacturing lithium polymer batteries since 2001 for digital devices,hobbies&toys,gps,medical,military,electric vehicles...etc.  
have 3 series lipo battery:High energy density,Low temperature and high temperature.
