

# High Performance 6200mah Lithium Polymer Battery Race Drone Battery 14.8v 4 Cells

## **Basic Information**

Place of Origin: CHINABrand Name: IohuiteModel Number: 2023-1

## **Product Specification**

• Protection: Over-charge, Over-discharge, Over-current,

Short-circuit Protection

Capacity: 2200mAhBalance Plug: JST-XH

• Charge Rate: 5C

Warranty: 12 MonthsDimensions: 135\*45\*25mm

• Weight: 220g

Application: FPV Racing Drone

• Highlight: Race Drone Battery 14.8v,

Race Drone 6200mah Lithium Polymer Battery,

4 Cells Race Drone Battery

# **High-Performance Lithium Polymer Battery with XT60 Connector Dimensions** 135\*45\*25mm

#### **Product Description:**

FPV Lipo Battery is an advanced Lithium-ion Battery with a capacity of 2200mAh and a maximum discharge rate of 75C. It has a dimension of 135\*45\*25mm and a 100mm long wire. The balance plug is a JST-XH plug, which is reliable and secure. This Lithium-ion battery is perfect for FPV applications, with its great power-to-weight ratio and excellent performance. It provides a steady output of energy and has a long life cycle, making it an ideal choice for FPV applications.

#### Applications:

LOHUITE 2023-1 High-Voltage Battery for FPV Racing Drone

LOHUITE 2023-1 is a high-voltage Lithium-ion battery specially designed for FPV racing drones. It is composed of advanced Lithium-ion battery cells with 11.1V voltage and 5C charge rate. The battery also features advanced over-charge, over-discharge, over-current, and short-circuit protection. With its JST-XH balance plug, it is the perfect choice for your FPV racing drone.

#### **Customization:**

LOHUITE 2023-1 FPV Lipo battery is a Lithium Polymer Battery with High-Voltage, specially designed for FPV Racing. It features Overcharge, Over-discharge, Over-current, Short-circuit Protection, Discharge Rate 75C, Wire Length 100mm and Brand Gens Ace. This battery is perfect for FPV Racing Drone.

#### **Support and Services:**

FPV Lipo battery Technical Support and Service

Provide 24/7 online technical support and troubleshooting;

Provide comprehensive product-related information;

Provide on-site technical guidance and installation services;

Provide software upgrade services;

Provide repair and maintenance services.

#### Packing and Shipping:

Packaging and Shipping

FPV Lipo battery products are securely packaged to ensure that the product is protected during shipment. The packaging is designed to withstand the rigors of transit and to protect the item from any potential damage. Knowing the importance of the product reaching its destination safely, we follow strict guidelines when it comes to packaging and shipping.

We use standard shipping methods such as USPS and UPS. We also offer express shipping options for customers who need their products quickly. We take great care in packing and tracking the shipment to make sure the product reaches its destination safely.

#### FAQ:

- Q: What is the Brand Name of this product?
- A: The Brand Name of this product is **LOHUITE**.
- Q: What is the Model Number of this product?
- A: The Model Number of this product is 2023-1.
- Q: Where is this product made?
- A: This product is made in China.
- Q: What is an FPV Lipo battery?
- A: A FPV Lipo battery is a type of Lithium Polymer battery designed for use in remote-controlled First Person View (FPV)
- Q: What are the benefits of using an FPV Lipo battery?
- A: An FPV Lipo battery is very lightweight and offers a long flight time with high discharge rates.
