Basic Information

- Place of Origin: CHINA
- Brand Name: lohuite
- Model Number: 2023-1

Product Specification

- Application: FPV Racing Drone
- Capacity: 2200mAh
- Wire Length: 100mm
- Balance Plug: JST-XH
- Charge Rate: 5C
- Brand: Gens Ace
- Weight: 220g
- Connector: XT60
- Highlight: **Lightweight 4s 2200mah Lipo Battery ,
14.8V 50C FPV Drone Battery ,
2200mah FPV Drone Battery**

Product Description

2200mAh 4S FPV Lipo Battery 14.8V 50C for RC Drone

Product Description:

LOHUIITE is proud to present to you the perfect FPV Racing Battery - the Gens Ace 2200mAh 11.1V high-voltage battery, designed specifically for FPV racing drones. This rechargeable battery is equipped with an XT60 connector and provides an ideal power solution for your FPV racing drone. With its high-voltage, high-capacity, and high-discharge rate, this battery can keep your drone flying strong and fast. It's the perfect combination of power and performance for high-speed drone racing.

The Gens Ace 2200mAh 11.1V high-voltage battery is designed to provide maximum power and performance for FPV Racing Drone.

Thanks to its advanced design, this battery offers a high-voltage output, high-capacity, and high-discharge rate, perfect for high-performance FPV racing. It also features an XT60 connector for easy installation and compatibility with a wide range of FPV racing drones. This battery is the perfect choice for anyone looking to upgrade their FPV Racing Drone.

LOHUIITE 2200mAh 11.1V high-voltage battery offers the perfect combination of power, performance, and convenience for FPV Racing Drone. With its high-voltage output, high-capacity, and high-discharge rate, this rechargeable battery is the perfect power solution for FPV racing drones. Plus, its XT60 connector ensures easy installation and compatibility with a wide range of FPV racing drones. Get the perfect power solution for your FPV racing drone with Gens Ace's 2200mAh 11.1V high-voltage battery.

Applications:

Introducing the LOHUIITE FPV Lipo battery, model 2023-1! This high-voltage battery is designed specifically for FPV racing. It is made in China and has a charge rate of 5C and a discharge rate of 75C. The LiPo battery has a capacity of 2200mAh and a weight of 220g, with dimensions of 135*45*25mm. It is the perfect battery for FPV racing, offering enough power to keep you in the air, as well as a lightweight design for a balanced and efficient flight.

This FPV Lipo battery is perfect for both experienced and beginner FPV racers. It has a high performance discharge rate, allowing for long and fast flights, and a high-capacity design that keeps you in the air for longer. The battery is also lightweight and easy to install, making it the perfect choice for FPV racing.

The LOHUIITE FPV Lipo battery is the perfect choice for anyone looking for a reliable and powerful battery to power their FPV racing experience. With its high-voltage design, high-capacity design, and lightweight design, the LOHUIITE FPV Lipo battery is the perfect choice for all your FPV racing needs.

Customization:

FPV Lipo Battery

Brand Name: LOHUIITE

Model Number: 2023-1

Place of Origin: CHINA

Warranty: 12 Months

Voltage: 11.1V

Protection: Over-charge, Over-discharge, Over-current, Short-circuit Protection

Charge Rate: 5C

Wire Length: 100mm

High-Voltage Battery, Lithium-ion Battery, High-Voltage Battery

Support and Services:

Technical Support and Service for FPV Lipo Battery

Our team provides technical support and service for FPV Lipo Battery. We offer a variety of services to help you get the most out of your product, including troubleshooting, repairs, and product upgrades.

Troubleshooting

We can help you diagnose and resolve any issues you may be having with your FPV Lipo Battery. Our team is available to answer any questions you may have about the product and its features.

Repair

If your FPV Lipo Battery is in need of repair, our team can provide the necessary services. We offer a full range of repair services, from simple fixes to more complex repairs.

Product Upgrade

We can help you upgrade your FPV Lipo Battery with the latest features and technologies. Our team can help you find the perfect upgrade for your product, ensuring you get the most out of it.

Packing and Shipping:

Packaging and Shipping for FPV Lipo Battery:

The FPV Lipo battery will be packed in a secure cardboard box, which will then be shipped in an insulated shipping container. The container will have an outer surface made of waterproof material to ensure that the product is not damaged during shipping. The

customer will be provided with a tracking number to monitor the shipment.

FAQ:

Q: What is the brand name of the FPV Lipo battery?

A: The brand name of the FPV Lipo battery is LOHUIITE.

Q: What is the model number of the FPV Lipo battery?

A: The model number of the FPV Lipo battery is 2023-1.

Q: Where is the FPV Lipo battery produced?

A: The FPV Lipo battery is produced in China.

Q: What is the capacity of the FPV Lipo battery?

A: The capacity of the FPV Lipo battery is dependent on the specific product.

Q: What is the size of the FPV Lipo battery?

A: The size of the FPV Lipo battery is dependent on the specific product.
