

2cells 2000amh RC Lifepo4 Battery Pack With Short Circuit Protection

Basic Information

Place of Origin: CHINABrand Name: lohuiteModel Number: 2023-02

Product Specification

• Discharge Rate:

• Protection: Overcharge, Overdischarge, Overcurrent,

Short Circuit

1C

Cycle Life: 2000 Times

Charge Temperature: 0-45
Charging Rate: 1C
Discharge Temperature: -20-60
Max. Charge Voltage: 3.65V
Storage Temperature: -20-25

• Highlight: 2cells Lifepo4 Battery Pack,

Short Circuit Protection Lifepo4 Battery Pack,

RC Lifepo4 Battery 2000amh

Max. Discharge Voltage 2.5V Lifepo4 Battery Pack with Short Circuit Protection

Product Description:

Our Lifepo4 Battery Pack is a Lithium Iron Phosphate Battery Pack, powered by lithium-ion technology. It provides an exceptional cycle life of 2000 times and a maximum charge voltage of 3.65V for your device. The battery pack is also temperature-resistant, functioning in temperatures ranging from 0-45. You can also customize the size of the battery pack according to your device's needs. With a voltage of 3.2V, our Lifepo4 Battery Pack is the perfect source of energy for your device.

Applications:

The **LOHUITE Lithium Iron Phosphate Battery Pack** (Model Number: 2023-02) is a multifunctional power solution that can be used in a variety of applications. This rechargeable battery pack is made of high-performance LiFePO4 cells, manufactured in China, and is designed to meet the highest requirements for safety and reliability. With a maximum charge voltage of 3.65V and a discharge rate of 1C, the LOHUITE Lifepo4 Battery Pack provides excellent power performance and a long cycle life of up to 2000 times. The battery pack is environmentally friendly and can be charged and discharged in a temperature range of 0-45. The storage temperature is -20-25, ensuring the battery pack's long-term stability. The LOHUITE Lithium-Ion Battery Pack is ideal for applications such as e-bikes, electric vehicles, energy storage, power tools, and other power-demanding applications.

Customization:

LOHUITE Customized Rechargeable Battery Pack

Brand Name: LOHUITE Model Number: 2023-02 Place of Origin: CHINA

Voltage: 3.2V

Storage Temperature: -20-25 Discharge Temperature: -20-60

Size: Customized Charging Rate: 1C

This Lithium Iron Phosphate Battery Pack is an advanced rechargeable Lithium-Ion Iron Battery Pack. It features a 3.2V Voltage, a storage temperature of -20-25, a discharge temperature of -20-60, and a customized size. Charging rate is 1C.

Support and Services:

Technical support:

We provide technical support for Lifepo4 Battery Pack, including setup, troubleshooting, and repair guidance.

We offer free online technical support 24 hours a day, seven days a week.

We provide personalized support for your product.

Services

We offer a wide range of services for Lifepo4 Battery Pack, including installation, maintenance, and repair.

We provide training and education programs to help you use your product more effectively.

We offer extended warranties and product replacements to ensure your satisfaction.

Packing and Shipping:

Packaging and Shipping

Lifepo4 Battery Pack will be packaged in cardboard boxes that are designed to fit the size and shape of the product. The box will also include foam inserts to protect the product from shock and vibration during shipping. The box will be labeled with the product name, model number, and other relevant information.

The product will be shipped via ground transportation with a reputable carrier. Tracking information will be provided to the customer once the package is shipped. The package will be insured for full value of the product.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is LOHUITE.

Q: What is the model number of this product?

A: The model number of this product is 2023-02.

Q: Where is the product made in?

A: This product is made in CHINA.

Q: What is a Lifepo4 Battery Pack?

A: A Lifepo4 Battery Pack is a rechargeable battery pack made with lithium iron phosphate (LFP) cells.

Q: What are the advantages of a Lifepo4 Battery Pack?

A: The advantages of a Lifepo4 Battery Pack are higher energy density, longer cycle life, higher power density, and lower internal resistance.
