

## RTR Off Road Remote Control RC Trucks RGT EX86110 1/10 4WD RC Monster Truck

Our Product Introduction

for more products please visit us on lohuite.com

## Basic Information

- Place of Origin: Guangdong, China
- Brand Name: RGT EX86110
- Model Number: RGT EX86110
- Price: \$299.99/pieces 1-11 pieces
- Packaging Details: GIFTBOX; OEM WELCOME

## Product Specification

- Style: RGT EX86110
- COLOR: Yellow/ Blue / Golden
- Remote Control Distance: 80m
- Type: 2.4G, Truck
- BATTERY: 7.2V 2000mAh Nimh Battery(included)
- Playing Time: 20mins
- CATAGORIES: RGT EX86110
- Name: RGT EX86110 RC Truck
- Gender: Unisex
- Power: Battery
- Material: Plastic
- Plastic Type: ABS
- Scale: 1:10
- Radio Control Style: RC Hobby
- Highlight: 4WD Remote Control RC Trucks,

 a gift box design. Gearbox, built-in LED headlights, horn light  
 stand, you can play on the ground when you get it. No need to  
 purchase other equipment, 3 colors are available, welcome to  
 buy.

## Product Description

## RGT EX86110 1/10 4WD Realistic Pioneer Track Rock RTR Off road Monster Truck Remote Control Model Car Toys

## Product Description

**Specification:**  
 Brand: RGT  
 Item No: EX86110  
 Scale: 1/10  
 Frequency: 2.4G  
 ESC: WP-1040A esc  
 Channel: 4CH  
 Gear Ratio: 56.6  
 Servo: 15KG torque servo  
 Motor: RC550 17T brushed motor  
 Material: plastic and electronic components  
 Weight: approx. 2600g  
 Color: blue, yellow  
 Ground Clearance: 80mm  
 Car Size: approx. 540\*240\*240mm  
 Wheel base size: approx. 313mm  
 Using Time: about 20 minutes  
 Charging Time: about 6 hours

Our Product Introduction

Car Battery: 7.2V 2000mAh Nimh battery(included)  
Transmitter Battery: 4 \* AA battery (NOT included)

**Packing list:**

- 1 \* RC Car (included the car battery)
- 1 \* Transmitter
- 1 \* US Plug Charger
- 1 \* Manual

**Note:**

There might be a measurement error of 1-3 cm due to different measuring methods, please refer to the size chart to choose a suitable size, and you can email us for suggestion if not sure about it.  
Color deviation might exist due to different monitor settings and light, please kindly understand.

### Packaging & Shipping

Packing: Giftbox Packaging

Shipping: Goods can be sent within 3-5 working days after payment or deposit received

Shipping way: Sea shipment, Air shipment, Express shipment

### Our Services

**Design Service**

**Weight:** 2.6KG  
**Features:** 2.4GHZ/forward/backward/turn left/turn right/stop/  
4WD/self-use control/adapt to a variety of terrain

## • PRODUCT DETAILS

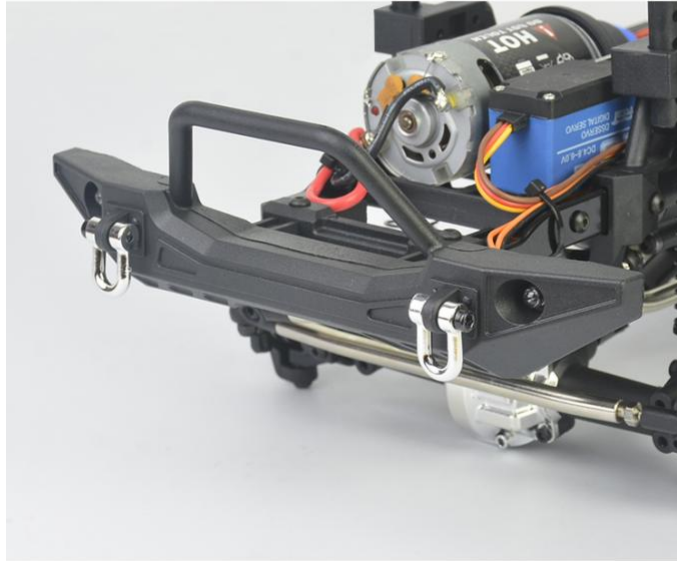

### SCX10 CLIMBING FRAME

The car adopts the classic SCX10 climbing frame structure front motor seat and front reducer design. The front-heavy design provides more effective traction for the front wheels of the car, effectively reducing the possibility of overturning when passing a high-angle slope.

## FRONT AND REAR CRASH BARRIER

The front and rear anti-collision uses high-quality nylon material, which can be adjusted in length. The overall is very tough and has stronger anti-collision performance. There are also two shiny U-shaped towing hooks, so you are not afraid of breaking down halfway. Front and rear anti-collision comes with lights.

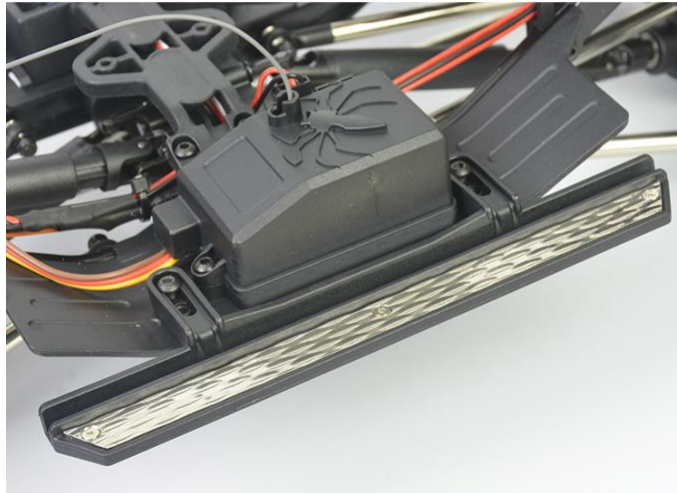

## METAL CVD TRANSMISSION

The front steering uses a metal CVD transmission to ensure the durability of the transmission! The newly designed steering arm adopts high-position tie rod steering to avoid the limit of seat C. With high-precision CVD, it can achieve an ultra-large steering angle of 42 degrees.

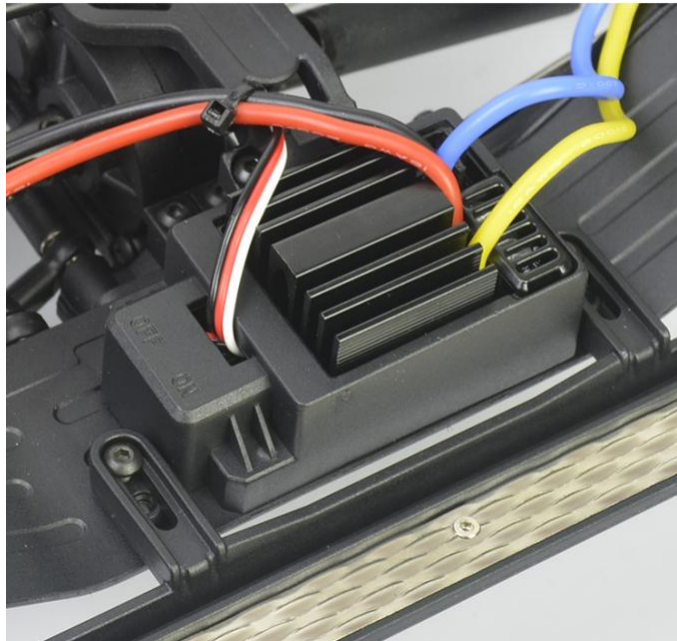

## ADJUSTABLE CENTRAL PEDAL

The shiny central pedal, the pedal can be adjusted in length and can also be removed.

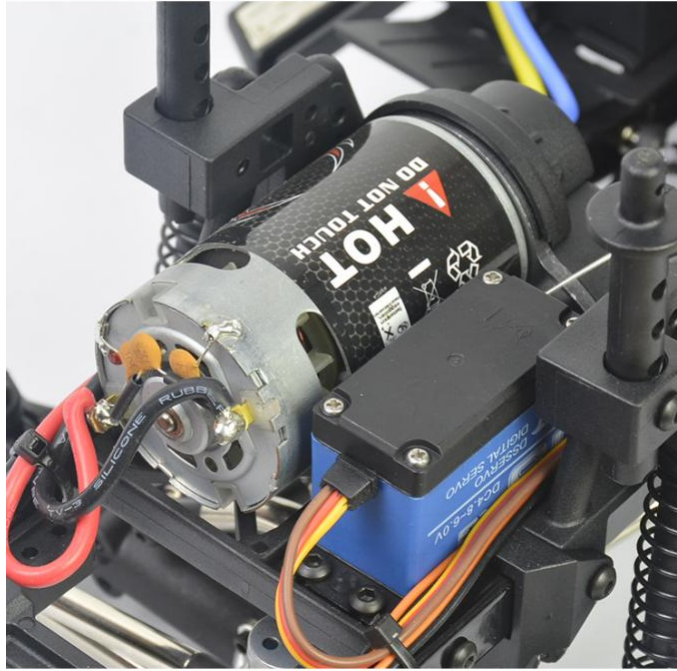

## HOBBYWING WP-1040 ESC

The ESC uses Hobbywing's WP-1040 brushed waterproof ESC and supports 2-3S lithium batteries. (It is recommended to add an ESC cooling fan when using 3S batteries)

## 550 MOTOR & 15KG STEERING GEAR

The 550-class 17T brushed motor brings sufficient power for the car to climb mountains and ridges. The 15KG metal waterproof high-torque steering gear makes the steering system of the car more powerful, more precise, and clear in the center.

## SPLIT GEARBOX DESIGN

Because the car is designed with a front motor, the power needs to be transmitted to the split gearbox and then to the front and rear differentials. This design makes the car's power transmission more even.

## NYLON DRIVE SHAFT

The drive shaft is made of nylon, but the whole is very strong. As long as it is not very strong, the durability is still very good.

The drive shaft joint is metal,

## HYDRAULIC SHOCK ABSORBER

The original factory comes standard with four hydraulic shock absorbers with damping, so that the car has better shock absorption performance and more stable driving. You can also use a circlip to adjust the hardness of the shock absorber.

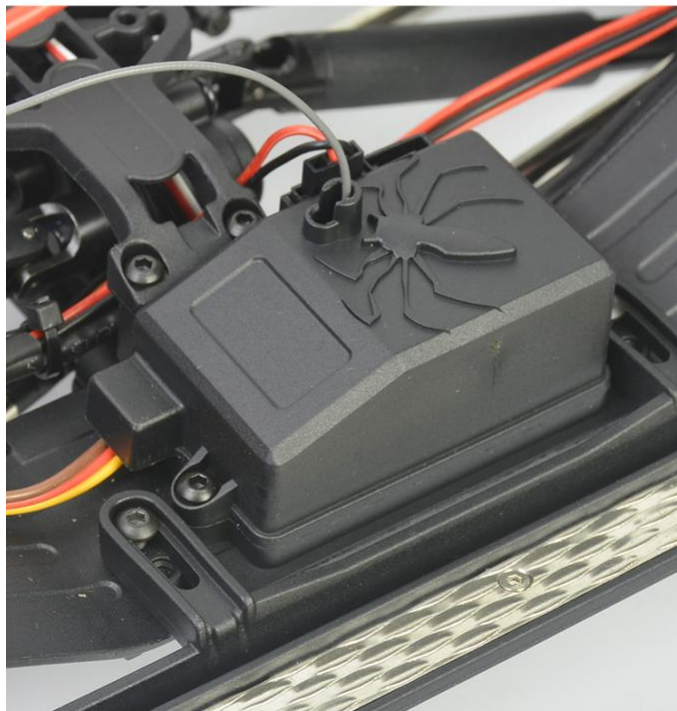

## 2000 MAH NI-MH BATTERY

The original factory comes standard with 2000 mAh Ni-MH battery easy to use and easy to maintain, T plug, battery compartment is fixed with a cable tie, size: 142X48MM, height is not limited.

## WATERPROOF RECEIVING BOX

The waterproof receiving box adopts a special design with inlaid three or four-channel ports for players to modify lights, winches, etc without removing the equipment box, and the overall frame wiring is more beautiful

## 2.4GHZ FOUR-CHANNEL GUN CONTROL

The four-channel remote control designed for climbing cars supports the third channel to control the light switch and the fourth channel to control the retractable and retractable winch function.

CHANNEL 4 (WINCH RETRACTABLE FUNCTION)  
NEED TO PURCHASE WINCH CONTROL BOARD SEPARATELY
