

100mm Wire Length Lithium Polymer Battery with JST-XH Balance Plug

Our Product Introduction

for more products please visit us on lohuite.com

Basic Information

- Place of Origin: CHINA
- Brand Name: LOHUIITE
- Model Number: 2023-1

Product Specification

- Warranty: 12 Months
- Protection: Over-charge, Over-discharge, Over-current, Short-circuit Protection
- Application: FPV Racing Drone
- Voltage: 11.1V
- Wire Gauge: AWG12#
- Capacity: 2200mAh
- Connector: XT60
- Brand: Gens Ace
- Highlight: **JST-XH Balance Plug Lithium Polymer Battery, 100mm Lithium Polymer Battery**

Product Description

Product Description:

Our FPV Racing Battery is specifically designed for use in FPV racing drones, delivering the power and performance you need to stay competitive. With over-charge, over-discharge, over-current, and short-circuit protection, you can rest assured that your battery is safe and reliable.

The balance plug on our FPV Racing Battery is a JST-XH, which is compatible with most FPV racing drones on the market today. The dimensions of the battery are 135*45*25mm, making it easy to fit into most drone designs.

Whether you're a seasoned FPV racing pilot or just starting out, our Lithium-ion FPV Racing Battery is the perfect solution for powering your drone. With its high-performance capabilities and reliable protection features, you can focus on flying without worrying about your battery.

Features:

Product Name: FPV Lipo battery

Discharge Rate: 75C

Weight: 220g

Application: FPV Racing Drone

Brand: Gens Ace

Voltage: 11.1V

Uses high-voltage Lithium-ion Battery technology

Designed specifically for FPV Racing Drones

Provides high-performance power and reliability

Perfect for competitive racing and high-speed maneuvers

Technical Parameters:

Lithium-ion Polymer Battery	Gens Ace FPV Lipo Battery
Brand	Gens Ace
Capacity	2200mAh
Discharge Rate	75C
Charge Rate	5C
Balance Plug	JST-XH
Connector	XT60
Wire Gauge	AWG12#
Protection	Over-charge, Over-discharge, Over-current, Short-circuit Protection
Dimensions	135*45*25mm
Weight	220g

Applications:

The LOHUITE 2023-1 Lithium-ion Polymer Battery is ideal for use in a range of scenarios and occasions. For instance, it can be used in remote control cars, planes, and boats, providing reliable power for extended periods of time. The battery is also suitable for use in aerial photography and videography applications, allowing users to capture high-quality footage from above.

In addition, the LOHUITE 2023-1 Lithium-ion Polymer Battery is perfect for use in portable electronic devices. Its compact size and high energy density make it ideal for use in smartphones, tablets, and other handheld devices. The battery can also be used to power portable speakers, headphones, and other audio equipment.

Overall, the LOHUITE 2023-1 Lithium-ion Polymer Battery is a versatile and reliable battery that can be used in a variety of applications. Its high discharge rate and charge rate make it perfect for use in high-performance devices, while its over-charge, over-discharge, over-current, and short-circuit protection ensure that it is safe to use in all scenarios.

Customization:

Customize your LOHUITE 2023-1 FPV Racing Battery with our product customization services. Made with high-quality Lithium-ion Polymer Battery technology, this battery boasts a 11.1V high-voltage capacity and a charge rate of 5C. It also features a durable AWG12# wire gauge and a reliable JST-XH balance plug.

All of our batteries are proudly made in CHINA and come with a 12-month warranty for your peace of mind. Personalize your battery to meet your specific needs and take your FPV racing experience to the next level with our product customization services.

Packing and Shipping:

Product Packaging:

FPV Lipo Battery

Protective foam padding

User manual

Shipping:

Ships within 1-2 business days

Free standard shipping within the US

International shipping available with additional charges

Tracking number provided
